SUMMARY

BSc (Hons) Software Engineering graduate with a Second Class (Upper Division) and over 3 years of hands-on experience in full-stack web and cross-platform application development. Proficient in React.js, Next.js, Node.js, TypeScript, JavaScript, Java, SQL, MongoDB, and RESTful APIs. Strong foundation in OOP, SOLID principles, data structures and algorithms, software architecture, SDLC, and secure programming. Experienced in authentication, Role-Based Access Control (RBAC), Git, CI/CD, Docker, AWS, cloud deployment, and database design. Hands-on experience with AI integration using OpenAI API, Pinecone, and n8n. Familiar with Agile methodologies, debugging, root cause analysis, and AI-assisted development, with a focus on building secure, scalable, and maintainable software.

EXPERIENCE

2025 - Present

Software Engineer | Cyber Security Analyst Intern | Sinetcom (Pvt) Ltd

- Developed a full-stack CRM platform using Next.js, TypeScript, Node.js, Supabase, and PostgreSQL, applying OOP, SOLID, software architecture, REST APIs, authentication, Role-Based Access Control (RBAC), and secure programming.
- Developed the company's official website and AI-powered chatbot using Next.js, Node.js, OpenAI API, Pinecone, and n8n, implementing API integration, AI integration, automation, and cloud deployment.
- Used Git, CI/CD, Docker, debugging, root cause analysis, and cloud deployment to deliver maintainable software and resolve application issues in an Agile environment.

EDUCATION

2022 - 2025

BSc (Hons) Software Engineering | Plymouth University (UK) | Second Class Upper Division

- Studied OOP, SOLID principles, data structures and algorithms, software architecture, SDLC, database design, and software engineering practices.

2018 - 2021

GCE/ Ordinary Level | Advanced Level | Mahamaya Girl's School

SKILLS

- **Software Engineering:**
OOP SOLID Principles SDLC
Data Structures & Algorithms
Design Patterns Software Architecture
- **Frontend:**
Next.js React.js Typescript Vue.js
HTML5 CSS3 Tailwind CSS MUI
Bootstrap

- **Backend & Database:**
Node.js Express.js RESTful APIs
Java SQL PostgreSQL MongoDB
Supabase Firebase
- **Cloud & DevOps:**
AWS CI/CD Docker Git GitHub
Vercel
- **Security:**
Authentication Authorization Git AWS
Role-Based Access Control (RBAC) JWT
Secure Programming
- **AI & Automation:**
OpenAI API n8n AI Integration
Pinecone AI-Assisted Development

PROJECTS

VELVORZ Clothing Store | Next.js Full-Stack E-Commerce Platform 2026-Present

- Developing a full-stack e-commerce platform using Next.js , React js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, and Redux Toolkit, with customer storefront and protected admin dashboard.
- Implemented authentication, role-based admin access, server actions, cookie-based sessions, product and category management, product variants, inventory, image storage, and customer account functionality using Supabase Auth, Storage, and database services.
- Designed a scalable application architecture using Next.js Server Components, API/server-side operations, database migrations, environment configuration, and Vercel deployment, with planned extensions for checkout, online payments, coupons, shipping rates, order lifecycle management, notifications, and sales reporting.

Cinemax | React & Node.js Movie Booking System Jan 2025

GitHub Link: https://github.com/Plymouth-University/coursework-group_91.git

- Developed a full-stack movie booking platform using React.js, Node.js, Express.js, MongoDB, and Tailwind CSS, implementing RESTful APIs, authentication, and database operations.
- Implemented PayPal integration, WebSockets, Docker, and real-time seat availability.
- Collaborated with a team of 8 using Git/GitHub and version control workflows for development and deployment.

Dual Money Tracker | Flutter & Firebase Finance App Apr 2025

GitHub Link: <https://github.com/minu2003/Dual-Money-Tracker.git>

- Developed a cross-platform finance application using Flutter, Dart, and Firebase with secure authentication and real-time database storage.
- Implemented CRUD functionality, Provider state management, and reusable components for maintainable application development.

EXTRA CURRICULAR ACTIVITIES

Head Prefect | Mahamaya Girl's School. 2020 - 2021

- Led the prefect team, coordinated major school events, and represented students in administrative meetings, developing leadership, communication, teamwork, and planning skills.
